To the Board of Directors and Members of Management Garberville Sanitary District Garberville, California

Board of Directors and Members of Management:

We have audited the financial statements of the business-type activities of the Garberville Sanitary District as of and for the year ended June 30, 2017. Professional standards require that we provide you with the following information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter dated September 22, 2017. Professional standards also require that we communicate to you the following information related to our audit.

#### Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our audit engagement letter, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

#### Planned Scope and Timing of the Audits

We performed the audits according to the planned scope and timing previously communicated to you in our engagement letter.

#### Significant Audit Findings

#### Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the financial statements were accumulated depreciation and depreciation expense.

Management's estimate of the accumulated depreciation and related expense for the current year was based on management's estimate of the life expectancy of the fixed assets. We reviewed the capital asset listing, and current year depreciation schedule. We were satisfied that the calculations used were reasonable.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audits

We encountered no difficulties in dealing with management in performing and completing our audits.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Board of Directors Page 3

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no adjustments to the financial statements in the current year.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 28, 2017.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District, financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Board of Directors and management of the Garberville Sanitary District and is not intended to be and should not be used by anyone other than these specified parties.

Board of Directors and Management Garberville Sanitary District

In planning and performing our audit of the financial statements of the business-type activities of the Garberville Sanitary District as of and for the year ended June 30, 2017 in accordance with auditing standards generally accepted in the United States of America, we considered Garberville Sanitary District's internal control over financial reporting (internal control) as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

This communication is intended solely for the information and use of management, the Board of Directors and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

#### INDEPENDENT AUDITORS' REPORT

To the Board of Directors Garberville Sanitary District

#### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, each major fund, and the aggregate remaining fund information of Garberville Sanitary District as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Directors Garberville Sanitary District

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, each major fund, and the aggregate remaining fund information of the Garberville Sanitary District, as of June 30, 2017 and 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

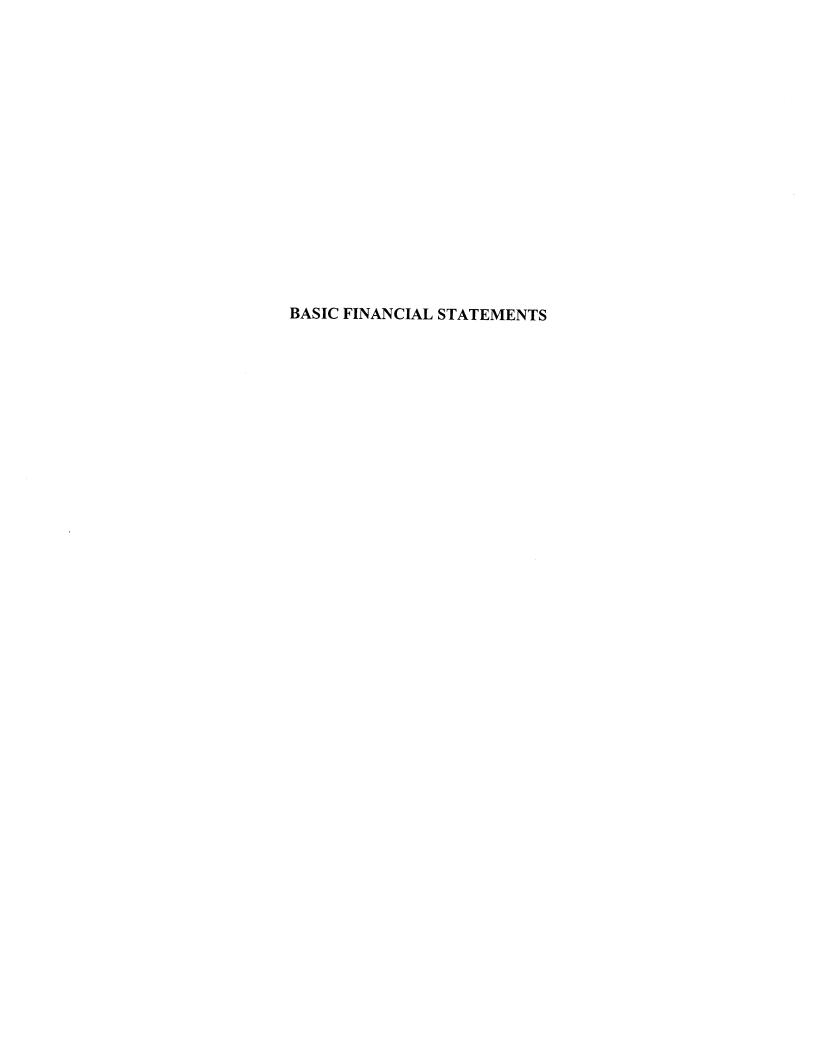

#### Other Matters

#### Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America required to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

## NOTES TO FINANCIAL STATEMENTS

## GARBERVILLE SANITARY DISTRICT Notes to Financial Statements

June 30, 2017

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Reporting Entity** - On April 12<sup>th</sup>, 1932, the Garberville Sanitary District (the "District") was formed, pursuant to the Sanitary District Act of 1923, Health & Safety Code Section 6400 et seq. for the following purposes:

1. The collection, treatment, and disposal of wastewater for the District and its inhabitants.

In December of 2004, the community voted to purchase the assets of the Garberville Water Company for the following purposes:

1. To supply the inhabitants of the District with water for domestic use, irrigation, sanitation, Industrial use, fire protection and recreation.

Garberville is an unincorporated community in the southern reaches of Humboldt County, California.

Measurement Focus and Basis of Accounting - The financial statements of the District are prepared in accordance with Generally Accepted Accounting Principles (GAAP). The District applies all applicable Governmental Accounting Standards Board (GASB) pronouncements.

The accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

The District uses proprietary funds. Proprietary funds are accounted for using the *economic resources measurement focus* and the *accrual basis of accounting*. Accordingly, all of the District's assets and liabilities including capital assets and long-term liabilities are included in the accompanying Balance Sheet. Under the accrual method of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The District reports the following proprietary funds:

<u>Enterprise Funds</u> - These funds are used to account for those operations that are financed and operated in a manner similar to a private business or where the board of directors has decided that the determination of revenues earned, costs incurred, and/or net income is necessary for management accountability.

#### **Notes to Financial Statements**

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Budgets and Budgetary Accounting** — The General Manager with the assistance from the Consultant Project Manager presents proposed budgets to the Board of Directors for approval. The budget is approved by a motion to adopt by the Board of Directors.

The budgets for the enterprise funds are adopted on the full accrual basis of accounting consistent with the comparative actual amounts.

Cash and Cash Equivalents - Cash and cash equivalents for purposes of the statement of cash flows includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the District. Restricted assets are included.

The District has a pooled investment which is administered by the County of Humboldt. These approved investments are carried at cost, which approximates market value, and may be liquidated as needed. The investment pool has not been assigned a risk category since the District is not issued securities, but rather owns an undivided beneficial interest in the assets of this pool.

Capital Assets and Depreciation - Capital assets are recorded at cost. Capital asset purchases with values exceeding \$250 and having a life expectancy of at least 3 years are capitalized.

Depreciation is computed under the straight-line method using lives ranging from 3 to 50 years. Depreciation expense is calculated by using annual allowance rates varying from 2% to 33% of the various year-end account balances.

Compensated Absences - Qualified employees of the District accrue vacation, sick, compensatory and other leave time. Upon retirement, resignation, or dismissal, employees are paid in cash for all leave time accumulated except sick leave. No compensation for accrued sick leave upon retirement or termination is made. Accordingly, sick pay is charged to expenditures when taken. No provision has been made in the financial statements for unused sick leave. The liability for compensated absences at June 30, 2017 was \$16,721, and at June 30, 2016 was \$25,910, and has been reflected thus on the Balance Sheet.

*Fund Equity* - Reservations of the ending retained earnings indicate the portions of retained earnings not appropriable for expenditures or amounts legally segregated for a specific future use. These amounts are not available for appropriation and expenditure at the balance sheet date.

Allowance Method Used to Record Bad Debts — Management has provided an allowance for doubtful accounts equal to the estimated uncollectible amounts. The estimate is based on a review of the current status of trade accounts receivable. It is reasonably possible that the District's estimate of the allowance for doubtful accounts will change. Accounts receivable are presented net of an allowance for doubtful accounts of \$5,000 at June 30, 2017 and 2016.

#### **Notes to Financial Statements**

June 30, 2017

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Policy for Defining Operating and Non-Operating Revenues** - The District's proprietary funds make a distinction between operating and non-operating revenues and expenses. Operating revenues and expenses generally result from providing goods and services related directly to the principal operations of the funds. All revenues and expenses not meeting this definition are reported as non-operating including interest income and expense.

*Policy for Applying FASB Pronouncements* - The District has adopted all applicable FASB Statements and Interpretations, APB Opinions, and ARBs issued after November 30, 1989.

Policy for Applying Restricted/Unrestricted Resources - When an expense is incurred for which both restricted and unrestricted retained earnings are available, restricted resources are applied first.

#### NOTE 2 - CASH AND CASH EQUIVALENTS

The District has no self-directed investments other than the pooled investment administered by the County referred to in Note 1. The District's funds invested and maintained by other agencies are as follows:

Management has evaluated subsequent events through December 28, 2017, the date the financial statements were available to be issued.

#### Storm Damage

On November 24, 2017, the surface water treatment plant's chlorine contact chamber underground piping experienced catastrophic failure. Coordination with the contractor that completed the construction of piping in 2014 and the State Water Resources Control Board Division of Drinking Water ensued. Temporary emergency measures were completed within days that allowed for operation of the plant while bypassing the chlorine contact chamber. SDRMA, the District's insurance company, was contacted along with various professionals and construction specialists. An insurance claim has been filed. The temporary measures in place now will be sufficient until spring when the flow rates for the plant will need to increase to fulfill increased demand. Staff is coordinating the design and implantation of a permanent fix to the failure. The cost for construction of the chlorine contact chamber underground piping in 2014 was approximately \$210,000. Replacement costs will either be paid for under the claim with the insurance company or will come from the District's reserve funds.
